Mr. Chas. L. Clarke,
109 Glenwood Boulevard
Schuylkill, N.Y.

My dear Mr. Clarke:-

Leaving here last Saturday morning I've just spent two or three days visiting with Will Edison at his home in Delaware, just outside of Wilmington, but before going got your letter of Aug. 14th. The package of photos I did not find until my return to this office yesterday. All are now in the photographer's hands with orders to make negatives and prints of each, and promised for Saturday of this week. Mr. Edison's were the most important, tho' glad to see Johnson's and Inalls'. I shall send prints of each of their mother's pictures to Wat. Long and Will.

I'm giving the photographer instructions not to soil or wear these in any way, and shall return them to you by registered post soon as I get them back, extremely grateful to you for the loan of them.

Francis is back - so is trouble! What do you think of the NERVE of the Prestolite Storage Battery Co. to put up a big advertising sign on the old Edison household property at Inalls - within a few feet of where the Memorial marker will go? I'm giving them until the end of this week to remove it - if they don't, we shall!

Thank you again! All good wishes to you all!

Sincerely Yours
F. A. Wardlaw.
